ESSAY [Each question is worth 4 points.]

Answer the following questions with at least one paragraph.

38. According to New Spirituality, who (or what) is ultimately god?

Since consciousness is the ultimate essence of reality, New Spiritualists refer to it as god. And since we are all a part of this consciousness, in a way, we are all god. The better we understand our connection to consciousness, the more godlike we become. [6.5a–6.5b]

39. Why do New Spiritualists believe that the Marxist pursuit of communism will always fail?

The goal of the Marxist is to bring about an earthly communist society. Since Marxism limits ultimate reality to matter, Marxists believe that a utopian society can only be achieved through political and economic changes. As the New Spiritualists see it, such an effort will always end in disaster because it fails to recognize that ultimate reality is consciousness, not matter. For New Spirituality, humanity's goal is to realize a higher state of consciousness, not to change earthly realities. [6.9b]
