TRUE OR FALSE [Each question is worth 1 point.]

Indicate if each statement is true or false. If the statement is false, alter it to make it true.

11. Secularism's metaphysics is not reducible to physics.

False: is [9.2b]

12. “Why is there something rather than nothing?” is an epistemological question.

False metaphysical [9.2b]

13. If materialism is true, then the mind is not reducible to the functioning of brain.

False: is [9.2c]

14. Marxism contends that matter has a purpose, direction, and inevitable end in mind—communism.

True [9.3b]

15. According to Marxism, the mind is a product of immaterial reality.

False: material [9.3c]

16. According to Postmodernism, our words describe reality.

False: our interpretation of reality [9.4a]

17. To New Spiritualists, truth is primarily known by experience.

True [9.5b]

18. According to the Christian view of metaphysics, matter came before mind.

False: after [9.7b]

FILL-IN-THE-BLANK [Each question is worth 2 points.]

Fill in the missing word to complete each statement.

19. According to _____ Luke 10:27 [9.1] _____, we are to love God with all our heart, soul, strength, and mind.

20. _____ Metaphysics [9.1] _____ is the study of ultimate reality.

21. _____ Epistemology [9.1] _____ is the study of knowledge.

22. The belief that reality is ultimately composed of one essential substance is called _____ monism [9.1a] _____.

23. The belief that reality is ultimately composed of two essential substances is called dualism [9.1a].
24. The study of the relationship between the mind and the physical body is known as the mind/body problem [9.1c].
25. Mind/body monism [9.2] is the belief that human beings are composed solely of matter.
26. Postmodernists reject the correspondence [9.4] theory of truth.
27. The theory that knowledge is built upon foundational principles is called foundationalism [9.4].
28. Pragmatism [9.4a] is the belief that propositions do not mirror reality and should therefore be treated as tools and judged by their practical consequences.
29. Knowledge [9.4a] is justified true belief.
30. Constructivism [9.4a] is the belief that scientific knowledge is merely a helpful social construct for understanding human sensory perceptions of reality but not direct and accurate knowledge of reality itself.
31. Epistemological humility [9.4a] is a humble attitude toward the beliefs we hold, realizing that our beliefs might be incomplete or mistaken.
32. Realism [9.7] is the belief that an objective reality exists independently from human perception or language.
33. John 1:1 [9.7b] reads, "In the beginning was the Word, and the Word was God, and the Word was with God."
34. Mind/body dualism [9.7c] is the belief that human beings are composed of immaterial minds and material bodies.

SHORT ANSWER [Each question is worth 3 points.]

Answer the following questions with at least one sentence.

35. Define philosophy.

Philosophy is the study of knowledge, truth, and the nature of ultimate reality. [9.1]

36. Define materialism.

Materialism is the belief that reality is composed solely of matter. [9.1a]

37. Define naturalism.

Naturalism is the belief that all phenomena can be explained in terms of natural causes. [9.1a]

38. Define dialectical materialism.

Dialectical materialism is the belief that only the material world exists and that class struggle is the inevitable mechanism behind social and economic progress. [9.3b]

39. Define anti-realism.

Anti-realism is the belief that denies the existence or accessibility of an objective reality. [9.4]

40. Define spiritual monism.

Spiritual monism is the belief that reality is ultimately divine. [9.5a]

41. Define dualism.

Dualism is the belief that reality is ultimately composed of two essential substances. [9.7]

ESSAY [Each question is worth 4 points.]

Answer the following questions with at least one paragraph.

42. Define scientific empiricism. Why is it an irrational position?

Scientific empiricism is the belief that we can only know what we discover through the scientific method. It says that we can know what is observable and testable, but everything else falls outside our realm of knowledge. The problem with this position is that the position itself cannot be verified using the scientific method. That is to say one cannot find the assumption of the position under any microscope or through any telescope. Scientific empiricism is proposing a qualification for knowledge that the theory itself cannot actually attain. [9.2b, 9.7a]
