36. Why is the atheist worldview that God doesn't exist incorrect? What verse in Genesis asserts this belief is false? What does the verse say?

The atheist view that God does not exist is wrong because Genesis 1:1 states that "In the beginning God created the heavens and the earth." This verse shows that God exists.

Essay [Each question is worth 5 points.]

Answer the following questions with at least one paragraph.

37. Describe our relationship with nature. How did the relationship begin? What is its purpose? What should we do in this relationship? What shouldn't we do? Include the term *stewardship* in your answer and give an example of it.

Our relationship with nature began when God gave humans the authority to have dominion over his creation and subdue it. The purpose of this relationship is stewardship—to wisely care for the land, plants, animals, and people. We are not to exploit or destroy the earth. We are to protect and preserve it. An example of stewardship is reducing waste by recycling.

38. If someone who believed in evolution were to ask you what the Christian worldview of creation is, how would you explain it based on Genesis 1–2?

Genesis 1:1 states that "In the beginning God created the heavens and the earth," which means that God exists and that he is the Creator of everything else. God created the universe out of nothing (*ex nihilo*). Humans were created in the image of God, which gives them value; they are not a random accident or highly evolved animals. Humans were created as male and female and have equal worth. God created marriage to be between one man and one woman only. Our bodies and our sex are good gifts from him; they are not evil. God also gave humans purpose—to be fruitful and multiply and to subdue and rule over creation as wise stewards.
