TRUE OR FALSE [Each question is worth 1 point.]

Indicate if each statement is true or false. If the statement is false, alter it to make it true.

14. A psychologist's main interest is physical health.

False: mental [12.2]

15. The guiding principle of secular psychology is that everything must be explained by material causes.

True [12.3]

16. According to behaviorism, human beings are stimulus receptors who respond in predetermined ways to their environment.

True [12.3]

17. According to the Marxist theory of psychology, human beings can be conditioned to do good and advance the cause of communism.

True [12.4]

18. According to Postmodernism, there is a single, separate, unified self.

False: is no [12.5]

19. Postmodernism contends that a truly healthy person acts on his desires and ignores society's attempts to define him as either sane or insane.

True [12.5]

20. According to New Spirituality, there is no physical, spiritual, or mental pain once we reach self-actualization.

False: higher consciousness [12.6]

21. According to Islam, mental health comes through pursuing our own good.

False: submission to Allah [12.7]

22. According to Islam, Adam and Eve's sin had little effect on human nature.

True [12.7]

23. Matthew 10:28 states, "[Do] not fear those who kill the body but cannot kill the soul. Rather fear him who can destroy both soul and body in hell."

True [12.8]

24. According to Christianity, the source of all psychological problems stems from society.

False: our rebellion against God and our fellow man [12.8]

FILL-IN-THE-BLANK [Each question is worth 2 points.]

Fill in the missing word to complete each statement.

25. In secular psychology, reference to the soul has been replaced with reference to the _____ self [12.2].

26. Secular psychology is shaped by two primary assumptions: God is a myth, and we are purely _____ physical [12.3] _____ beings.

27. The belief that all human behavior is the result of naturalistic processes and not personal volition is called _____ behaviorism [12.3].

28. _____ Cognitive behaviorism [12.3] _____ is a school of psychology that reduces all behavior to cognitive functioning and seeks to explain behavior by examining underlying cognitive causes.

29. _____ Psychoanalysis [12.3] _____ is an approach to psychology whereby a psychologist attempts to resolve a patient's psychological problems by uncovering and discussing the patient's unconscious desires.

30. _____ Third force psychology [12.3] _____ contends that human beings are innately good physical beings with personal agency who are mentally healthy when focused upon achieving self-actualization.
31. _____ Higher consciousness [12.6] _____ is the state of awareness wherein individuals realize their divinity and the divine interconnectedness of all things.
32. Some New Spiritualists contend that human beings can physically heal themselves through practicing _____ visualization [12.6] _____.
33. _____ *Fitrah* [12.7] _____ is the belief that all human beings have an innate predisposition toward submitting to Allah and acting morally.
34. _____ Epiphenomenalism [12.8] _____ is the belief that the mind is a projection of the brain's activity.
35. According to Ephesians 2:1–3, the three sources of temptation are the world, the _____ flesh [12.8] _____, and the devil.
36. The branch of psychology that focuses on promoting mental health and happiness rather than treating mental illness is called _____ positive psychology [12.8] _____.

SHORT ANSWER [Each question is worth 3 points.]

Answer the following questions with at least one sentence.

37. Define psychology.

Psychology is the study of the human soul. [12.1]

38. Define mind/body monism.

Mind/body monism is the belief that human beings are composed solely of matter. [12.3]

39. Define self-actualization.

Self-actualization is the stage at which a person purportedly meets his or her full psychological potential. [12.3]

40. Define classical conditioning.

Classical conditioning is a training technique that pairs a naturally occurring stimulus and response with an unrelated stimulus, so that eventually, the unrelated stimulus is able to produce the desired response in absence of the natural stimulus. [12.4]

41. Define decentered self.

Decentered self is the belief that human beings are social constructions without any singular identifiable essence, nature, or soul. [12.5]

42. Define fourth force psychology.

Fourth force psychology is a school of psychology that attempts to integrate aspects of transcendent religious teachings within the framework of modern psychology. [12.6]

43. Define mind/body dualism.

Mind/body dualism is the belief that human beings are composed of immaterial minds and material bodies. [12.8]

ESSAY [Each question is worth 4 points.]

Answer the following questions with at least one paragraph.

44. What are the three forces of secular psychology?

The first force is B. F. Skinner's behaviorism. The second force is Sigmund Freud's psychoanalysis. The third force is based on Abraham Maslow's theory of self-actualization. [12.3]

45. Why did Marxists ultimately reject behaviorism in favor of classical conditioning?

Skinner's theory of behaviorism was based on the notion that human behavior was ultimately determined by our biology and not choice. Marxists needed a theory that not only allowed for free will, but also provided a mechanism for directing behavior. In order for Marxism to reach its goal, the working class needed to start a revolution. Pavlov's research into classical conditioning provided a theory that could direct human behavior. Marxists believed the results Pavlov achieved with dogs could be duplicated with highly evolved animals, that is, human beings. Using the techniques of conditioning, Marxists believed they could help start a communist revolution. [12.4]
