Essay [Each question is worth 5 points.]

Answer the following questions with at least one paragraph.

33. Explain the roles of reason and doubt in apologetics and the Christian life.

Reason is important because we are commanded to love God with all our mind. Reasoning well also shows love and respect for those we engage in conversation about the truth of Christianity. Doubt can drive us to learn more and to use our reasoning abilities to build a stronger faith. Reason is not ultimate, and doubt cannot be totally eliminated. At some point, everyone has to place faith in the evidence and in ultimately unprovable truths.

34. Contrast poor evangelism and apologetics methods with Jesus' model for reaching sinners.

Poor evangelism and apologetics tactics could be things like high-pressure tactics to get someone to pray a prayer, shouting at people and waving signs in their faces, or just being rude during a gospel-sharing conversation. Jesus did speak the truth boldly, but he also spoke with grace and didn't try to force people to believe in him. It's important to be humble, love others, and respect their free choice when doing evangelism or apologetics.

35. You try to share the message of salvation with your friends but meet with a lot of resistance. How can knowing who the true enemy of the Christian is and the appropriate weapons for the battle help you respond well?

Realizing that the true enemy is the spiritual powers of evil and not individual people can help me be more compassionate when someone isn't responding well to the gospel. Instead of getting frustrated with my friends, I can pray for them and love them as I continue trying to share the truth with them whenever there's opportunity. The weapons for spiritual battle are prayer and God's Word.
